

BHUVANASHREE K R

Aspiring Software Developer — Full-Stack Web Development & UI/UX

Coimbatore, Tamil Nadu | bhuvanashreekr@gmail.com | [GitHub](#) | [LinkedIn](#) | [Webrivex \(Live Project\)](#)

SUMMARY

Pre-final year B.E. Electrical & Electronics Engineering student who independently designs, builds, and ships full-stack web products — including a production application with authenticated database access, deployed end to end. Combines hands-on UI/UX design internship experience with self-taught web development, backed by an engineering foundation in digital systems. Comfortable owning a product from design to deployment.

SKILLS

- Frontend & Design: HTML, CSS, JavaScript, UI/UX Design, Wireframing, Figma, Brand & Visual Systems
- Backend & Database: Supabase, PostgreSQL, Authentication, Row-Level Security
- Deployment & Tools: Netlify, Formspree, Git/GitHub
- Engineering Foundation: Verilog, FPGA, UART Protocol, Digital Circuit Design, Embedded Systems, IoT
- Productivity & Data: Microsoft Excel, Power BI, Copilot, Python (learning)

PROJECTS

Webrivex — Client Intake Platform (Live, self-built)

[idyllic-meerkat-0cbae3.netlify.app](#)

- Independently designed and built a branded, full-stack client-intake web application end to end — brand identity, visual system, and typography through to production.
- Built a multi-step intake form with dynamic, service-based logic and Supabase backend, including authentication and Row-Level Security to restrict data access at the database level.
- Set up real-time notification handling via Formspree and deployed to production on Netlify.

UI/UX Internship Projects

[github.com/bhuvanashreekr-del/ui-ux-internship-projects](#)

- Collection of UI/UX design projects from the Codec Technologies internship, including wireframes, prototypes, and user flows.

Digital Electronics & VLSI Internship Projects

[github.com/bhuvanashreekr-del/codec-vlsi-internship](#)

- FPGA Traffic Light Controller and UART Protocol implementation, built in Verilog.

EXPERIENCE

UI/UX Designer Intern — Codec Technologies Pvt. Ltd.

May 2026 – Jun 2026

- Completed a 1-month AICTE & ICAC-approved UI/UX design internship, producing wireframes, prototypes, and user flow documentation.

Digital Electronics & VLSI Intern — Codec Technologies

- Designed and simulated an FPGA-based Traffic Light Controller and a UART communication protocol using Verilog.

Embedded Systems & IoT Intern — Enthi Technology Solutions

- Worked on embedded systems and IoT-focused project tasks as part of the internship program.

EDUCATION

B.E. in Electrical and Electronics Engineering

2024 – 2028

Kumaraguru College of Technology, Coimbatore — Pre-final year

CERTIFICATIONS

- Microsoft Certified — Excel, Copilot, Power BI, Data Analysis
- Cisco — Data Analytics Essentials

INVOLVEMENT

ProtoSem 1.18 — Forge, Coimbatore Innovation & Business Incubator, KCT Tech Park

2026

- Provisionally selected for the ProtoSem 1.18 cohort through a competitive interview process, for hands-on, mentor-led work on applied technology and innovation challenges.
